

# Polley Report

JANUARY 2010

## Happy New Year!

*I hope everybody had an enjoyable Christmas break, spending time with family and taking time to relax before heading in to a New Year.*

## Water Safety DVDs Available

Renowned swimming coach Laurie Lawrence has produced a free DVD on water safety for parents and carers of children under 5.

This decade over 300 children under the age of 5 have drowned in Australia. As we come towards the end of the decade it would be nice to see a commitment by all of us to ensure this figure is drastically reduced over the next 10 years.

If you would like a copy of this free DVD please contact my office on toll free 1300 134 923.

Let's all enjoy this summer in safety!

## Ravenswood Heights Primary School Visit

Senator Polley with Assistant Principal Craig Woodfall and Brant Webb.

In December I visited the Ravenswood Heights Primary School to view the construction and refurbishment projects funded under the Rudd Government's *Building The Education Revolution*.

I was greatly impressed with the planned layout of the school, which will add light and usable space to the school, and the opening of the core of the building will enhance the learning experience.

The Gymnasium will flow on to open spaces allowing very attractive learning areas. Opening of class rooms onto the court yard will be a great bonus for both teachers and students.

The Ravenswood community should be proud of what the School Community has worked so hard to achieve.

Wherever I go teachers, parents and student all tell me the Rudd Labor Government's investment in education

Senator Polley, Geoff Lyons and State Labor Candidate for Bass, Brant Webb

infrastructure (after years on neglect), is an investment in their children and their children's children and is money well spent.

I am proud to be part of a Government which believes in the future and invests in that future, with Ravenswood Heights Primary School an important part of that future.
